Skills

C# • JavaScript • CSS • HTML5 • TypeScript • SQL
RESTful API • Microsoft SQL Server • Angular 11
React • Bootstrap • EF Core • ASP.NET • .NET Core

Agile Workflow • Microsoft DevOps • Azure
Visual Studio Code • Slack • Google Apps
Notion • Unity Game Engine

Experience

Jr. Web Developer Intern — *San Joaquin County, CodeStack*

May 2021 - July 2021

- Developed multiple endpoints for an API used on a website by over 2 Million members.
- Assisted in the rebuilding of a back-end web app to use a REST API .
- Developed a production ready relational SQL database using EF Core.
- Used Azure Dev Ops. for task management, code review and version control.
- Worked with developers outside my stack and quickly adapted to an unfamiliar workflow.

Barista — *Starbucks*

Nov 2019 - Nov 2020

- Worked in a fast paced environment.
- Created an ideal workspace for myself and my co-workers through excellent soft-skills.
- Gave quality customer service.

Projects

PC Prometheus — *Backend Developer*

- Developed, maintained, and distributed a fully functioning backend SQL database using Microsoft Azure.
- Prototyped a majority of a front facing website using Adobe XD.
- Worked with teammates outside of my expertise. Upholding clear communication and task completion with Jira.

2021 H2O Hack-a-Thon — *Team Lead*

- Participated in a community run event to help solve and bring awareness to an environmental issue.
- Implemented and distributed working C# scripts quickly.
- Effectively kept teammates organized and on task with Unity's built in version control.

Education

Lincoln High School

High School Diploma

2016 - 2019

CodeStack Academy — *Full Time Student*

Certificate of Completion

Sept 2020 - Jun 2021

5000+ Hrs
